

IS HE AN ESCAPE?

Man Held at Police Headquarters on Suspicion.

MAY BE GEORGE B. WRIGHT

Who Escaped From the Iowa Prison Three Weeks Ago—Says He Recently Came From There.

Last night a little before midnight Patrolman Swan arrested a suspicious appearing individual at the corner of Colburn and Ottawa streets on suspicion of larceny. The man was carrying a pack of a half a dozen green sheep pelts on his back and he was taken to police headquarters for investigation. The detective at once surmised that he was George B. Wright who escaped about three weeks ago from the Iowa prison. They telephoned to the officials at Iowa for a complete description of Wright but the telephone worked badly and they could not get the whole description distinctly but the part understood agreed somewhat with the man's appearance. He said his name was Charlie White but acknowledged that he had served time in Iowa. He said he was released a few weeks ago after having served a three-year sentence and was wearing a green coat. When searched a revolver was found among his effects. He explained his position of the sheep pelt by saying that he worked two days for a farmer a few miles north of the city and took them in payment for his work. He said he was sentenced from the southern part of the state and after considerable hesitation located the place at Marshall. He was looked up for the night on the charge of carrying concealed weapons, and this morning the prison officials will be communicated with again in order to learn more fully the description of the escaped convict.

City News in Brief.

The Sweet furniture factory has shut down temporarily. Seventy-five of the 90 men employed at the McCord & Bradfield factory have been laid off for the present. Uniform Price for Sugar.

A meeting was held last evening at the corner of Kamey street and Grandville avenue under the auspices of the Retail Grocers' association for the purpose of drawing the grocers of that section into the association. The subject of selling sugar is a perplexing one to the retail trade as the dealers outside of the association many times make it a leader in trade and cut prices. All members of the association have a uniform price, 6 cents a pound or seventeen pounds for \$1, while those outside frequently sell eighteen and twenty pounds for \$1. Particularly in this condition on Grandville avenue and vicinity. Several of those grocers were induced to send in their applications for membership in the association and it is thought they will soon have the sugar question amicably adjusted. The meeting was addressed by E. A. Stone and others.

Why River Navigation is Delayed.

Captain Muir, formerly of the steamer Barrett, but now manager of the Valley City Transportation company, said yesterday in answer to an inquiry why the river boats have not been running. "The owners of the two boats have been trying for the last three months to organize into one company, and until some understanding was arrived at neither company cared to put its boat in competition to run. They consolidated about May 1 and both boats will now be run under one management. The Barrett was fitted up at once and work began on the Valley City, which is being pushed as fast as possible. This boat will be put into active service as soon as accommodations can be provided for boarding and lodging the crew. There is plenty of freight guaranteed and we are anxious to get the Valley City out as soon as possible."

Stephens; second lieutenant, Charles A. Howard. A committee composed of C. C. Evans and Bert Price was appointed to secure a hall in which to hold the meetings of the camp. There are a few preliminaries yet to arrange before the camp will be mustered and a meeting will be held next Friday night.

Mr. Lee says he had already disposed of the notes and Mr. Reeves says he will make him prove as to that.

Bicycle Club Cobweb Social.

The Grand Rapids Bicycle club ended its season of social festivities last evening with a cobweb social given in the club rooms. About forty couples were in attendance and the party was a merry one. She was then his partner for the evening and divided the contents of her lunch box with him.

WAN ARRANGED LONG AGO.

The Bucket Shop Swindle Was Known to Local Gamblers.

It was reported yesterday that the scheme by which the bucket shops of the stock and produce exchange were swindled was put up by a wealthy man of the state who had been bled by these same bucket shops. A little inquiry showed that this was not the case. The scheme was arranged and the plans laid several weeks ago, and several of the sorting men of the town were invited to join. These sports now claim they forgot the date on which the scheme was to be executed and so missed a chance to make a good haul. It is probable that the local gamblers did not have the nerve to play a game which might prove dangerous. These sports say the whole scheme was put up by members of the gambling fraternity and not by any outside party. The fellow who played the shop here remained in the city all day and left the city on the evening train Monday. The gamblers of the city refused to tell the name of the man, although they have been informed that the law would have no hold on him.

Union or Non-Union.

There is a pretty row brewing among the lady musicians at North park. The managers of this popular resort recently contracted with Mrs. O. A. Wells' orchestra to furnish music for the season. This orchestra has eight members, five of whom are Grand Rapids people and members of the local musicians' union. The other three members were brought here by Mrs. Wells from Fenton, Mich. Recently each of the three made application to join the union for membership and a committee was appointed to examine them, musically. Although this committee reported favorably on the qualifications of the applicants, it is alleged that when the ballot for membership was taken they were rejected. The ladies matters in a bad mess. The rules of the union prohibit a member from playing with a non union musician, and yet all are under contract for the season. If the ballot is not reconsidered it is probable that the matter will be brought to the attention of the Central Labor union for adjustment.

FREE ICE CREAM SODA TODAY.

Crozier Bros', Grand Shoe Store Opening.

The largest soda fountain in the state is ready for business at Crozier Bros', although the fancy top is not yet completed. The new Columbia washer put on yesterday is a prize. It cleanses and polishes a tumbler both inside and out in a moment. The water used passing through a small water motor causes rapid revolution of the brushes over which the glass is crowded. Free soda is a magic attraction for the ladies, and literally thousands will attend today and enjoy the harp and mandolin music furnished by Mrs. Lovejoy and her lady assistants. Callers should go in from Canal street and out by Lyon street to avoid a jam at the doors. All day and evening you are welcome, and you need no money to have a good time. It's Crozier Bros' treat today. "Here's to them."

The best attraction of the season at Poynt's Thursday and Friday evenings. Sword drill and Schubert club.
